

Victor Valley RC Flyers, Inc.

NON-POTABLE WATER RELEASE FORM

I, the undersigned, understand that the water in the ground piping at the Victor Valley RC Park known as “the farm” is NON-POTABLE and is NOT FOR DRINKING. I realize that this water is processed waste water and that it is remotely possible to contract a serious disease from handling or drinking this non-potable water. Should I contract a disease from the water, I will not hold Arrowhead CSD or Victor Valley RC Flyers liable.

Bottled water that I have brought to the site or that has been provided by the club will be the only water used for human consumption.

It is necessary that all members sign and return this form to the club.

This release has been mandated by Arrowhead CSD, the property owner and will be kept on file by the Victor Valley RC Flyers.
